Cretaceous Dinosaurs Info

### Tyrannosaurus rex

Almost everything about the Tyrannosaurus rex — the 4-foot-long jaw, the 6-inch-long teeth, and the huge thigh bones — indicates the enormous power of one of the largest theropod dinosaurs that ever existed.

## Introduktion

Velkommen til den officielle Google+-side for SMK - Statens Museum for Kunst.

SMK er Danmarks hovedmuseum for billedkunst. Vi tilgængeliggør og formidler kunsten, vi bevarer den for eftertiden og forsker i den. På museet kan du møde 700 års verdenskunst, primært fra den vestlige kulturkreds fra 1300-tallet til i dag.

Vi holder dig opdateret om, hvad der sker på museet fra udstillinger til events, fra web tv til historier fra konservatorenes atelier. Vi hører gerne fra dig - og om din lyst til kunst.

På Google+ er det primært Merete Sanderhoff og Sarah Grøn, der skriver.
