Project

Field(s)

IMMIGRATION AND TOURISM: REMOVING BARRIERS

Description

The main objective of the project is to involve four regions of different countries through their similarities in Mediterranean heritage, tourism, immigration and gastronomic culture. This project will seek to involve immigrants through its different cultures in tourism development in the territories, addressing the issue of immigration as something positive within each region. Its main idea is to create a gastronomic association expecting volunteers who collaborate in the development of the activities carried out within the association.
