## Europe for Citizens 2014-2020

Strand/category	"Europe for Citizens" - Networks of Towns 2017 – second deadline
Deadline	01/09/2017, 12:00 (Central European Time).

## Organization

Name	Municipality of Lagoa – Portugal (Public local authority)
Short description	<p>The Municipality belongs administratively to Faro District, distributed in 4 parishes. With a population of 22,975 (2011) inhabitants, it has an area of 88.25 square kilometers and a population density of 260.3 people per square kilometer. Lagoa is currently one of the most important tourist counties in the Algarve. There are several factors that contribute to this recognition, namely the diversified supply (the beauty of its beaches - supported by magnificent hotel units, golf courses, cultural heritage), the correct land occupation in terms of spatial planning, Social stability and the affability of its people. With a renewed cultural vision, recommended by the tourist activity, Lagoa caresses innumerable ancestral techniques, linked to the pottery, to the sweets, with the intention of enhancing and enhancing them as a component of the tourist product. The great development of the county has been based on a strategy of great environmental concern. Lagoa has resisted the invasion of the clutter, preserving its coastline and maintaining a harmonious combination of old and modern dwellings. The vineyard's culture and wine production, an ancestral element of Lagoa, is another great economic potential of the county that in the last three years has been very dynamic with new investments in this sector and the appreciation of new brands of wine that present great quality. In the last 15 years, Lagoa has registered one of the highest rates of economic development, supplanting all the counties of the Algarve region. Nowadays, it is endowed with numerous equipment in the area of health, education and education, sport, leisure and tourism.</p>

## Project

Field(s)

**Building a Europe based on the sharing of knowledge, experience and apprehension of common ideals. BESKEAI**

Description

From a perspective of European construction based on its history and values to find European cities that are attentive in the diffusion among these local communities of these fundamental principles. Let us work together to affirm full European citizenship through multiculturalism, multilingualism and the effective civic participation of citizens. Our council is currently implementing a set of projects and themes that aim to affirm the quality of life of our communities as a priority. Thus, we are looking for partners to develop a project under the EU network of towns program which will share with us its experience and expertise in a mutual growth that are reviewed in the aforesaid and are also developing and / or implementing projects related to the concepts: Smart Cities, Sustainable Tourism, Urban Mobility, Culture and History, Creativity, Intervention Programs Social, education for citizenship and multiculturalism. We would like to make connections with European cities, based on the sharing of knowledge, ideas, experience, projects and programs.
